BIG JOBS.

Will be offered all over the house this week. Every department will contain big leaders that patrons of the house will do well to examine. Here is a small sample. Hundreds of just such bargains can be found that we have no room to mention:

100 yards spool silk, in all colors, 5c, worth 10c. A good 50c corset for 35c. All-linen towels 12½c, 18c, 20c and 25c. Big bargains for the quality. 100 pieces Torchon laces at about 50c on the dollar. 5000 ladies' collars and cuffs in ladies' neckwear at 10c, 19c, 25c, 29c up to 39c. Each and every article is worth from three to five times the price we ask for them.

Shirtings at 10c and 12½c; very cheap. Big jobs in white and colored flannels. Belts 19c, 25c, 29c and 35c; big bargains.

BIG BARGAINS IN OUR GLOVE DEPARTMENT.

Extra choice five-button scalloped-top kid gloves for $1.25; all colors. Very low prices in lisle thread and silk gloves and mitts. We are the only glove fitters in the city.

Hoop skirts and bustles, also shawls, cloaks and skirts at the lowest prices ever named.

All through the house these universal low prices have been adopted. This week we will receive a large line of new souvenirs, which will be presented free to all patrons on arrival of goods.

OUR BIG BOOK DEPARTMENT

Will be opened in a few days. You will then get low prices on books. Examine our new prices on cotton flannels. This is one of the attractive features in our domestic stock.

Handkerchiefs, 3c, 4c, 5c, 6c, 9c, 10c and 12½c, worth double. Boys' suspenders 10c. Men's suspenders 25c.

SPECIAL PRICES.

A good unlaundried shirt at 49c, worth 75c. Ladies' linen cape collars at 10c, worth 20c. Double fold cashmeres 16½c; cheap. Strictly all-wool cashmeres, full yard wide, only 50c. Big bargains for the quality. Hosiery 5c, 10c, 12½c, 15c, 19c, 22c, 25c, 29c up. Greatest bargains we have ever had.

Big Bargains in Ladies' Underwear at 50c

All-wool ladies' cloth in fine qualities, all shades, 75c, worth $1.

English homespuns and fine French novelties in dress goods of every description at very low prices.

3000 gross Pearl Dress Buttons for 5c. Hair and clothes brushes, combs, soaps and perfumes at one half the usual prices. They are

Big Jobs and Great Bargains.

Big jobs in jeans and cassimeres for men's and boys' wear. Prints from 3½c up

OUR 49c SALE

Will engage our attention during the coming week. We will

REDOUBLE OUR VALUES,

Having received, through the strenuous efforts of our Mr. S. A. HAMBURGER, now absent,

BARGAINS THAT YOU WILL APPRECIATE.

As an additional incentive to push trade, and to further advertise our now almost

FAMOUS 49c BARCAIN SALE,

We will offer each day during the coming week, together with other useful, ornamental and handsome articles,

AN ELEGANT, FANCY DECORATED

CHINA TEA SET OF FORTY-FOUR PIECES

The value of which is no less than $15. The purchaser of each $1 worth of merchandise will receive a ticket, and at the close of each day's business as many numbers as there are tickets will be placed in a box and one number drawn for each article that is to be presented by us. The successful ones will be ascertained

EACH EVENING AT 7 P. M.

And those interested are invited to be present and participate. The tea sets and other articles

WILL BE ON EXHIBITION

In our show windows the day before their presentation.

A. Hamburger & Sons,

PEOPLE'S STORE,

41, 43 and 45 Spring Street, Los Angeles.

CATARRH!

A NEW TREATMENT BY

W. N. DAVIS, M. D., M. C. P. S. O.

Graduate of "Chicago Homœopathic College," Chicago, and "College of Physicians and Surgeons of Ontario," Canada,

HOMŒOPATHIC SPECIALIST in Diseases of Ear, Nose, Throat, Chest, and all Chronic Diseases.

TREATMENT.

Starting with the theory now generally believed, by the most scientific men, that the disease is due to the presence of living parasites in the tissues, we devote our treatment to their destruction, and the catarrh is cured.

Frequently from four applications will accomplish the object, but constitutional medicines are required, if the blood or liver are impaired.

In this manner every case of catarrh, no matter whether of one or forty years standing, can be cured, and is the only means by which catarrh ever has been cured permanently.

Fully one-half the cases of so-called consumption are due to catarrh and can be cured by our new system.

Simple Nasal Catarrh and pharyngitis can be treated at a distance by writing for a list of questions, but if lungs are involved an examination at office is necessary.

Consultation and Examination Free

The following testimonial of a gentleman well known in Los Angeles, who has a law office at 45½ North Spring street, will show how quickly catarrh can be cured:

This is to certify that I am a regularly qualified physician, but not practicing, and have always believed catarrh of the chronic nasal variety to be an incurable affection, but hearing of Dr. W. N. Davis' new treatment and its success, I applied to him for medicine and determined to try it in the case of one of my friends, and did so with the most satisfactory results, as large ovaments was immediate, and one prescription effected a cure. The case was of years' standing and of a very severe type. I can recommend Dr. Davis to those similarly afflicted. J. HALSY, M. D.

Los Angeles, August 1, 1885.

Office Hours—10 to 12 a. m., 2 to 4 p. m., and 7 to 8 p. m.

CONSUMPTION

And all the various diseases of the

HEAD, THROAT AND CHEST,

Including the

EYE, EAR AND HEART,

Also all Chronic Diseases, and Diseases Incident to Females, Successfully Treated by

N. HILTON WILLIAMS, M. D., M. C. P. S. O.

975 S. Main St., Los Angeles, Cal

(Next Diamond House.)

CONSUMPTION.

The earlier symptoms of this disease are a sense of weariness upon little exertion, a disposition to remain passive and idle, a peculiar sensitiveness to the effects of cold and a shortness of breath upon moving quickly or ascending a hill or eminence, a slight hacking cough, with or without expectoration, flying pains throughout all the chest or back, or under the shoulder blades. The symptoms are worse towards or during the night, slight fever in the afternoon, cold feet and hands, and in many cases blue lividity of the lips and roots of the finger nails.

The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectorations of yellow pus from the ulcers or cavities in the lungs, with or without a deep seated cough of the chest, increasing weakness and at last a closing up of the air passages of the lungs, causing strangulation and suffocation of the patient for want of power to expectorate the mucous from the lungs.

Heretofore the treatment of consumption has been very unsatisfactory, both alike to the physicians and their patients, but luckily since the discovery of the *Koran* system of practice a few years ago, thousands of cases have been completely cured, where, had it not been for this system of treatment, their failure to check the evils of the disease would have continued up to the premature close. The system of medicated inhalations is the only means by which these diseases can be cured, and they are recommended by the highest authority, both in Europe and America. And here we would draw the distinction between Inhalation and atomization. Some persons suppose they are the same in every respect, while nothing is farther from the truth. In atomization the liquid is scattered in the form of a spray, which only reaches the throat. In vapor inhalation, the remedy to be inhaled, medicates the air we breathe, and is conveyed directly into the air passages of the lungs as ordinary air. By this means we are enabled to dissolve the hardened masses in the lungs, ease the cough, facilitate expectoration, contract and heal ulcers and cavities after all hope of cure by the ordinary methods is past. Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance in business whatever.

Inhalations are applicable to all diseases of the respiratory organs, including throat diseases, asthma, bronchitis, consumption, and thousands of cases can be cured by this mode of treatment when nothing else can reach them.

Consultation free and price within the reach of all.

The very best of references given from those we have cured. And we would particularly urge upon our Eastern friends the necessity of direct medication—inhalation—as well as the most favorable climatic influences, if you wish to avoid the sad experience of hundreds of invalids who depend upon the climate alone, as nine cases out of ten die in consequence of this very thing.

Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally, may write for "List of Questions" and circular, both of which will be sent free of charge. Address,

N. HILTON WILLIAMS, M. D.,

The Times.

Office—Temple, Main and New High.

GREAT is diplomacy and manifold are its uses! A revolution in the little State of Roumelia, the deposing of its chief executive and the declaration of a union with Bulgaria, under Prince Alexander, is sufficient to set all Europe a-buzzing like a hive of swarming bees. The balance of power is threatened. Turkey may take up arms, while England and France will be united in any possible conflict; Germany is certain to insist on the enforcement of the Berlin treaty, and Russia, who is supposed to have put up the job, looks at the change of government with equanimity. The fates of all the nations of Europe and of some of those of Asia seem to hang on the change of government in that little State. It is a good thing that the United States does not need to concern herself so much about the affairs of her neighbors. Think how we should be torn up about the revolutions in Mexico! Think of the diplomatic toil we should encounter over the differences between the Central and South American States, and how the whole continent might be set by the ears in the occupation of Catalina island. No, we order these things better in America; let us hope that we shall continue to do so.

THE New York Tribune's financial article of the 14th presents a mass of statistics of interest to the Produce Exchange. They show the exports of breadstuffs in this country during August in 1883, 1884 and 1885. In 1883 they amounted to over $18,000,000; in 1884 to $16,000,000; and this year they are only $7,709,956—a decrease in two years of $10,000,000. The Tribune says: "To the unspeculative average reader this indicates at least that the wide wide world is bitterly hungry just now for our wheat, corn and other products. Other and more pointed inferences may also be drawn by well-informed business men."

BACK AND AT WORK.

County Recorder Miles Once More on Duty.

County Recorder C. E. Miles got home from his northern trip Sunday, and was met at the depot by a number of friends, who were glad to see him. Yesterday noon he turned over to Auditor Montaño the delayed August fees, and settled the case so far as its pecuniary features are concerned. He spoke readily with a TIMES reporter yesterday afternoon; said he ought to have turned in his fees on the first Monday in the month, but had never been in the habit of doing so. Had almost always run beyond the legal time before making his settlements. This had been the custom for years, in his own and other county offices. Auditor Montaño had never objected to the delay so far as he knew. He had slipped away from the city quietly, as was his wont, and intended to go to Lang's. Felt sick, however, and concluded to go on to San Francisco. Had done so; and the first he knew of any trouble was upon reading a dispatch in the Chronicle. Then he came home as soon as he could. Was sorry the thing had happened, but had no one to blame but himself, and felt it would teach him—and perhaps some others—a lesson. The law ought to be carried out to the very letter, and should be, so far as he was concerned, hereafter. He is nearly sick with the same affection he had before leaving—a terrible cold in the lungs—and looks ill. He was at his desk yesterday.

DISAGREED.

The Case of "Jap" Randol the Lee Metea Shooting.

The case of W. J. Randol, better known as "Jap," occupied the attention of Judge Cheney and a jury yesterday. Randol was charged with assault to murder. Several months ago he got into a drunken row with two Elisalde brothers and shot both of them, while they are said to have had a knife in his hand with a load of backshot. Randol has quite recovered, and so has one of the brothers; but though the other is about, it is said the wound will eventually cause his death. The jury went out at 4.30 p. m. and came in at 8.55 last night, being unable to agree. It is understood that ten stood for acquittal and two for conviction. There was no doubt that Randol did the shooting, but whether in self defense or not, it was hard to determine.

THE SCHOOLS.

The Work Begins With a Large Attendance.

The public schools of the city reopened yesterday with an excellent attendance, considering the unprecedented heat of the day. A large proportion of the primary pupils were wisely kept at home; and some older scholars were absent for the same reason. Yet the total attendance reached 2880. It is expected that this number will be increased at least 20 per cent. as the schools get fairly under way. The demands for room are heavy, and the Board of Education needs more room for Boyle Heights; and is now looking for a large extra room in the area between First, Sixth, Main and Olive streets.

Select Knights A. O. U. W.

By proclamation of the Supreme Commander, Hon. Clark D. Knapp, of Albion, N. Y., a Grand Legion for California is ordered instituted, and Comrade Wm. A. Fox, of Los Angeles, is appointed Instituting Officer.

Three comrades are appointed a committee on laws and their supervision, to-wit: Comrade Wm. H. Jordan, San Francisco; Comrade A. Cobler, Los Angeles; Comrade Oscar Robinson, Colusa.

Three comrades are appointed a committee of arrangements, to-wit: Comrade Wm. A. Fox, Los Angeles; Comrade Thos. Murray, San Francisco; Comrade R. E. Collins, San José.

These committees are instructed to get to work at once, that an early day may be set for the work, and it is hoped that Los Angeles shall be designated as the place of organizing the Grand Legion of the Select Knights of California

County Assessments Raised.

The State Board of Equalization on Saturday night completed its work in equalizing the assessments. The assessments of the following counties were raised: Alameda 12½ per cent., Kern 15, Lake 10, Los Angeles 20, Napa 10, San Francisco 12½, Santa Clara 10, Santa Barbara 15 and Sonoma 10. The total increase is $49,305,185. The applications of San Luis Obispo and San Benito counties for a lower assessment were denied. The State rate of taxation was fixed at 54 cents and 4 mills on the $100.

New Real Estate Firm.

Messrs. Shea & Werner have opened a real estate office at 119 North Spring street. These gentlemen lately came here from Burlington, Kansas, and as will be seen by their card published elsewhere, have the best of references. They will do a general real estate business.

Oil as Fuel.

The San Francisco papers are paying a great deal of attention to the use of oil as fuel. The Electric Light Company was one of the first of our manufacturing institutions to substitute oil for coal, and has used it over two years with the best of results.

A Rooster.

The weather yesterday was the hottest ever known here. Sunday the thermometer climbed to 105 degrees; yesterday the maximum notch was 108½. There were heavy readjustments to the east; and big fires along the Sierra Madres east, and behind the Santa Monica mountains.

ROUMELIA.

All of the European Powers Agog About Her.

MUCH DIPLOMATIC SPECULATING.

And Some Speculating in Stocks as Well—Do the Signatory Powers Approve It? How About Turkey?

Associated Press Dispatches to The Times.

PHILLIPOPOLIS, Sept. 21.—The agents of all the great powers signatory to the treaty of Berlin have sent dispatches to their respective governments approving of the movement of Friday last. It is rumored at various Consulates in this city that Ambassadors at Constantinople have succeeded in dissuading the Porte from sending Turkish troops to Eastern Roumelia to regain possession of the country.

THE RUSSIAN PRESS JUBILANT.

ST. PETERSBURG, Sept. 21.—The Russian press are jubilant over recent events in Eastern Roumelia, but seem surprised at the suddenness of the rising and express the belief that the affair was arranged at the meeting of Emperors at Kremsier and Skiernevice.

PRINCE ALEXANDER EN ROUTE.

PHILLIPOPOLIS, Sept. 21.—Prince Alexander, of Bulgaria, is expected to arrive here to-day. The Prince is receiving enthusiastic ovations at every station along the route from Tofia.

THE FRENCH IDEA.

PARIS, Sept. 21.—French diplomats have it that the outbreak in Roumelia will unite England and France, in view of the rising being an apparent scheme for the partition of Turkey. French newspapers urge that France should act cautiously in dealing with the matter and await the declaration of Lord Salisbury's policy.

AN ENGLISH OPINION.

LONDON, Sept. 21.—The Standard, commenting on the rising in Eastern Roumelia, says: We cannot believe that the powers interested were ignorant of what was coming. If they were, the gravest trouble may arise. England has only the faintest interest, while Austria and Germany are bound to co-operate in keeping the Berlin treaty intact, and it remains to be seen how it will affect Russia. If the treaty powers are acting in concert, the Sultan is powerless.

FALL IN INTERNATIONAL SECURITIES.

LONDON, Sept. 21.—There was a heavy fall to-day in international securities caused by the events of the past few days in Eastern Roumelia. The average fall in Turkish shares was from two to five per cent. In French, three per cent; rentes, one per cent, and in Russians, one per cent.

A PANICKY FEELING.

LONDON, Sept. 21.—Reports from various continental Bourses show that a panicky feeling prevailed in financial circles during the greater part of the day, but, towards the finish, business quotations at several Bourses rallied somewhat from the lowest prices of the day. The closing prices, however, show heavy declines as compared with Saturday's closing figures. Various rumors were afloat by Paris stock jobbers, in order to keep up the excitement, including one to the effect that Turkey was mobilizing her army preparatory to reasserting her claims in Eastern Roumelia. The market at the London stock exchange closed dull, with slight recovery from the lowest point of the day. American securities were steady.

INSPIRED ARTICLE.

VIENNA, Sept. 21.—An inspired article in the Fremden Blatt states that the unionistic tendencies of Bulgaria and Roumelia have repeatedly excited the serious attention of of political circles. The powers, this paper says, continue to cherish a desire to respect and maintain the treaty of Berlin. The action of Prince Alexander of Bulgaria in placing himself and his army at the head of the uprising constitutes a grave violation of international law. It is a challenge to Turkey. Europe cannot, for the benefit of a single Balkan State, indorse this infraction of treaty rights, enabling the disruption of the balance of power of national political forces on the Balkan peninsula as fixed by the Berlin treaty. It is premature to say definitely what common action will be taken by the powers, but it is certain that the movement will be kept in the narrowest possible bounds, the powers retaining supreme control of events in the Balkans.

ACTED INDEPENDENT OF RUSSIA.

PARIS, Sept. 21.—Semi-official advices tend to confirm the report that Prince Alexander, of Bulgaria, acted entirely independently of Russia in annexing Roumelia, and was impelled only by Bulgarian public opinion. It is considered improbable that Turkey will accept pecuniary compensation for the loss of Roumelia, because the Balkan frontier is necessary to defend Constantinople. It is believed the Porte has resolved to fight in order to restore a *status quo*, but the fact that the powers are desirous of peace diminishes the gravity of the situation.

THE DEPOSED GOVERNOR.

SOFIA, Sept. 21.—Gabriel Pacha, the deposed Governor of Roumelia, is a prisoner here. The National Assembly has been summoned to meet Wednesday.

THE CHOLERA.

Sympathy and Money from King Humbert.

ROME, Sept. 21.—King Humbert has sent a dispatch to Palermo expressing great sympathy for the suffering people. His Majesty has also sent $10,000 to be distributed among them. He places Villa Favorita at the disposal of the sufferers, and exhorts the people to show their courage and calmness during the trying ordeal through which they are now passing.

PALERMO, Sept. 21.—During the past twenty-four hours 182 new cases of cholera and 123 deaths from the disease have been reported here.

ROME, Sept. 21.—Reports from Palermo regarding the progress of cholera show a distressing state of affairs prevailing there. Thirty thousand persons have fled from the city. All of the shops are closed, and the streets are almost deserted. There is a great scarcity of food and water, and the epidemic is increasing with frightful rapidity. Sanitary officials are attacked by people every time they attempt to disinfect houses and streets. Corpses and dying are found with a great deal of difficulty in carrying on their work.

AT GIBRALTAR.

GIBRALTAR, Sept. 21.—Thirty-seven new cases of cholera and fourteen deaths were reported in Spanish lines here yesterday.

SICILY.

ROME, Sept. 21.—Cholera is spreading in Sicily and the situation is becoming serious. Every town is cordoned and conflicts between the populace and military are continually occurring, and many persons have been wounded. A large military force is to be dispatched to the island to restore order.

THE NEW SILVER FIND.

Excitement in El Paso Over the Chihuahua Discoveries.

NEW YORK, Sept. 21.—The Herald's Paso del Norte dispatch says that great excitement prevails in that city and El Paso over the confirmation of reports of the discovery of a vast silver deposit in the Sabinas mountain, 100 miles south of El Paso, in Chihuahua. The deposit says a large number of miners from New Mexico and Arizona are hurrying through there en route to the new silver fields. A report states that native silver of a high grade of purity was found on the surface, and it is asserted that the discovery is the most valuable that has been made for years.

The Wine Exhibit Needs Bracing Up.

SAN FRANCISCO, Sept. 21.—F. Pohndorff, Viticultural Representative from California at the Louisville Exposition, writes that there is a great lack of samples of California wines in the exhibit. He strongly urges, in the interest of grape growers and wine makers of the State, that more be sent on as quickly as possible. He suggests that samples of raw wines and samples of the same wines which have improved with age be forwarded in order to show the capabilities of improvement possessed by the California wines and the degree of perfection they attain in the bottle.

Price of the Brigands.

SALONICA, Sept. 21.—Brigands have captured the niece of Archbishop Vertos and another lady. They demand the sum of £3000 for the ransom of the prisoners.

TELEGRAPHIC BRIEFS.

George H. Whitman, a pioneer of 1849, and one of the best known citizens of Mono county, died yesterday at Bridgeport at the age of 78 years. He had been a resident of Mono county 23 years.

A Constantinople dispatch states that United States Minister Cox and General Grant, have succeeded in obtaining a revocation of the order expelling the American Jews from Jerusalem.

A committee of Chicago operators appointed to a full meeting, at No. 2 Pine st., the new policy of the Western Union to employ extra operators for extra time, with the assurance that the same be received in good faith and acted upon accordingly.

SAN FRANCISCO.

A Manager Who Was Not Skipping Out to Defraud His Creditors.

SAN FRANCISCO, Sept. 21.—John A. Stevens, the well-known playwright and late manager of the Grand Opera House of this city, was arrested to-day just as he was stepping on the steamer Columbia, sailing for Portland. Affidavits had been filed by some of his creditors that he was leaving the State to defraud his creditors. Mr. Stevens, on being brought before Judge Burke, acknowledged his indebtedness, but showed so clearly that he had no intention of defrauding any creditors that he was immediately discharged.

A NEW TRIAL.

The Supreme Court to-day granted a new trial in the suit of Arguello versus Bourn.

BESTOWING THE PALLIUM ON ARCHBISHOP RIORDAN.

SAN FRANCISCO, Sept. 21.—St. Mary's Cathedral was crowded yesterday with an assemblage to witness the ceremony of bestowing the Pallium on Archbishop Riordan of this diocese. The services were conducted by Right Rev. Francis Mora, D. D., of the diocese of Monterey and Los Angeles. Assisted by Father Monogue of Grass Valley. When the mass and sermon were finished, Bishop Mora robed himself in a rich pontifical mitre on his head and proceeded to the altar, there being joined by His Grace Most Rev. P. W. Riordan, accompanied by the clergy of his cathedral and by Very Rev. J. Adam, Vicar General of Monterey; the Rev. Father Blanchet of Oregon. Archbishop Riordan and Bishop Mora placed the pallium around the Archbishop's neck.

ENLARGED SHEET.

TUESDAY, SEPTEMBER 22, 1885.

A Council of Bankers.

The annual convention of the American Bankers' Association begins its session in Chicago to-morrow. It is expected that from among the eight thousand Bankers who have been invited to attend there will be a heavy representation, especially from the West and Southwest. The association includes not only National banks, but private bankers, with the savings and State banks, and the loan and trust companies, so that every department of the American banking system will be represented. In many cases where banks are not represented by delegates in person, it is expected that written reports and other papers will be sent.

Many important subjects will come before the convention for discussion. Among them are the suspension of silver dollar coinage, the prevention of losses to moneyed corporations by defalcation, the projected reforms in the extradition treaties of the United States with foreign countries, the avoidance or diminution of the evils periodically occurring in this country from financial panics, the unprecedented growth of material wealth and productive power, especially in the West and South; the development of the iron and cotton manufactures, and the attraction of capital to lucrative investments in most sections of the country.

Statistical reports regarding the banking business and financial progress of the year, the Clearing-house movements here and abroad, the practical lessons suggested by the growth of the banking system in various sections of the country, and the progress of the three parts of which it consists—the State, private and National banks—will be laid before the convention. An important report has also been prepared on the thirty one extradition treaties that have been arranged between the United States and other nations, and this report will be discussed with a view to the correction of existing deficiencies by adopting the best provisions of treaties now in force between foreign countries. In short, the convention will go after the festive cashier who is wont to rake in the deposits and skip to Canada, feeling sure, under the existing order of things, of immunity from arrest and punishment. As long as a teller can put a fortune into his pockets at the close of business hours to-day and be safe in Montreal, beyond the criminal law, before the bank opens to-morrow, there will be lacking a most obvious safeguard for the protection of financial institutions. This safeguard will be afforded by a proper extradition treaty with England, and the negotiation of such a treaty should be demanded by the Chicago convention of bankers. The whole thirty-one extradition treaties for the surrender of criminals will be analyzed. They differ very much in their provisions. Copies of these treaties will be presented with appropriate comments, and it is promised that steps will be taken in the next Congress to obtain treaties which will put a stop to the Canadian business. The Dominion is to this country what Belgium is to Europe, and it is high time that the scandal should cease.

Representative bankers will consult on the best expedients for meeting dangerous financial situations. The silver question will receive the particular attention of the Southern and Western delegates.

The Secretary of the Association, Dr George Marsland, said to a reporter, in speaking of the forthcoming convention:

A Committee of Investigation, appointed by the Executive Council, will present a report upon the utility and expediency of extending the use of silver to the utmost possible extent without impairing the gold standard. This committee has sent out printed questions to all sections of the country, and has received replies which show that nine-tenths of the banking element are willing to use their utmost endeavors to extend the circulation of silver. Some dislike to handle it, some speak of it as a nuisance, some write despairingly of it as an inundating flood, but nearly all are willing to work for its circulation so long as it does not interefere with the maintenance of gold as the standard monetary coin of the country. * * * Those who manage the programme have made it their special object to bring out the views of every section of the country, so that the result shall be brought about by the rubbing of all the views together and the survival of the fittest.

Another thing which will be considered will be the internal improvement in the banks themselves by the introduction of fresh and better checks against irregularities. Still another measure suggested will bear upon the bonding of bank servants, and in this the example of England may be followed, where companies have been formed that furnish bonds for the good behavior of clerks, upon the payment of an annual fee.

Such a convention as this cannot fail to be an important gathering, with a wide influence on the business interests of the country. It will give a striking idea of "the enormous extent of this great country, of its immense resources and sea-like volume of money." Some of the keenest financial intellects of the age will be assembled there.

The proceedings of these assembled bankers will be looked for with interest by business men all over the country.

GOVERNOR LONG, of Massachusetts, advises that at banquets the speeches should come first and the dinner afterward. This is worth thinking of. It might have the good effect of briefing the speeches.

THE Chillicothe, Ohio, Leader describes a cyclone as "a V-shaped funnel of fate." Good. Maintaining the simile, we might add that the V shaped funnel is used for pouring the forty-rod fire-water of fury into the vinegar jug of vacancy.

OJOS CALIENTES Y FRIO.

Life and Laziness Lying at San Juan Capistrano Springs.

MANY ATTRACTIONS OF THE SPOT

The Waters and Their Virtues—Fine Camping Grounds—Spirndid Woods—Towering Peaks—Deer-Hunting Extraordinary.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SAN JUAN CAPISTRANO SPRINGS, Sept. 15.—There are only about fifty visitors at the famed San Juan Capistrano Springs at this late day in the season. From Los Angeles, I find Mrs. T. D. Mott, who is the guest of Mrs. Marcus Forster, and Mr. Sweeny and family. From Centunela ranch, Jonas P. Wanvig, James Root, Edward Root and James A. Root, who are enjoying a needed rest after a successful harvest. Marcus Forster and family, of San Juan Capistrano, are here, while Santa Ana and vicinity furnish the remainder of the campers. [Mrs. Mott has since returned to Los Angeles.]

HOT AND COLD WATER.

The road to the springs, except the last few miles, is good. Nature has been liberal in her endowment of this country with medicinal springs, and the country is still almost in its primitive state. Nature's reservoir is overflowing and the water, hot and cold, gushes out of almost every hill. A comfortable bath house of ten rooms has been erected and is under the superintendency of Mr. Mignel Krashewski. The superintendent has lived in this neighborhood about thirty years, and devotes his entire time to the visitors. The hot water at the bath house has a temperature of 126° Fahrenheit, and the cold springs are of a comfortable drinking temperature. The principal components are sulphur, iron and borax, though it does not smell or taste as strongly as the waters of the iron-sulphur springs at Fulton Wells.

A GENERAL CURE ALL.

What it cures I cannot say. There are people here bathing zealously for rheumatism, paralysis, dyspepsia, rumaligm and other nameless or imaginary diseases, and each of them has a different experience to report; all favorable, however. When a visitor appears the old campers set him down at once as an invalid, and want to know what he or she has come to cure. If he is as robust as the esthetic John Sullivan, of Boston, he is questioned closely as to his chronic or organic ailments. In any own case, being a little weak except in appetite, I was at once put on the consumptive list. It mattered not the camp fund did not rush to be baths to cure my alloted disease. I heard of frequent inquiries in my absence of "How is the old boy getting along?" and when my companion told them there was nothing the matter with me, I was blacklisted as a deceiver and impostor, who shocked the proprieties of the camp. One antiquated chap from Gospel Swamp, to make assurance doubly sure, made a personal inquiry as I was taking it easy on the blankets in the tents. "Well, are the waters improving you?" "I think so." "Are the baths doing you any good?" "Oh, yes." "How many have you taken?" "None." This was horrifying to my questioner, who, by the way, has got quite deaf since his visit to this mountain Arcadia. He then wanted to know if I observed any difference in the air, and a negative answer put him in a frown sixty. He gave me a parting shot, however, in saying: "I thought somebody said you were consumptive," the I in the last word being pronounced like that in knife, and here I had been hoeing at him for a few minutes like a stump speaker addressing a deaf and dumb asylum by mistake. At last, in self-defense, after a week's stay, I made a case in one hand and an overcoat over my arm and started for the ba-h-house. The bath was pleasant and beneficial, but when I got back to camp a big dog that had become a habitué of our dominicile failed to recognize me, and tried to prevent me hanging up the bathing towel. The effect of the bath astonished me so that I postponed the remainder for a few days, though the big dog and his owner have returned to Los Angeles. This may be considered a puff for the springs or a proof of lack of perception in the dog, just as you take it. However, as the theologians say, faith is a gift, and faith in healing springs has been prevalent since the days of Ponce de Leon. With substitutions days, cool nights, nutritious food, calm rest, sulphur water and an absence of quack doctors, visitors should improve.

A BIG DEER STORY.

I would like to entertain you with a big fish story, but since last year's heavy overflows large trout are scarce, our hunting is prime. Hardly a day passes but hunters bring in deer, and quail are very abundant. Mr. Lamb, of Santa Ana, week before last, brought in a buck that weighed, when dressed, 245½ pounds, and on last Sunday the hunt rs brought in five deer. This is a big buck story, but well authenticated. It is a good t ing when the usual fish story cannot be told that a reliable hunting story is handy. Some of the hunters are out to-day who will, no doubt, return loaded with game—and stories.

THE SCREOUNDING.

As I sit in camp under a majestic live oak, the eye in every direction is greeted with mountain peaks and the valley looks a sylvan paradise. Cañons open, like closets in an old house, where least expected, some of them appearing as if never disturbed by the foot of man. Here wild alfalfa, wild oats and other feed grows in abundance; hot and cold sulphur water, pure mountain springs and running streams are everywhere. Altogether it is a rural elysium, its only permanent residents being a few bee men, whose pets thrive on the white sage and other honey-producing plants. The springs have been well patronized this season and were there a railroad to San Juan Capistrano, twelve miles distant, the number of visitors would be largely increased. C.

NEIGHBORHOOD NEWS.

SIERRA MADRE.

PROPERTY TRANSFERS AND OTHER NOTES.
[Correspondence of the Times.]

SIERRA MADRE, Sept. 21.—The beach is popular again as the weather becomes warmer.

The new Episcopal Church will be begun this week, the contract being let to one of our local carpenters.

Mr. Cates has sold his five-acre place to one Mr. Lewis lately from England. The price paid was $1,300.

Mr. Stephen Norris has bargained for one-half of Mr. Wilson's 20-acre place at $300 per acre for a relative in the East. The same gentleman has already purchased ten acres of Mr. Renfro for his mother who will soon leave Canada for California.

Sierra Madre is following the example of other colonies in subdividing her small places. One can make a nice house and get lots of climate from a small piece of land.

Quite a number of our people attended the railroad jollification at Pasadena last week.

Joseph Goodwin is back again at Sierra Madre, and is convalescing quite rapidly.

There are fifty five scholars attending the school this term—twenty-five in Mrs. Jones's room and the balance in Mrs. Tuttle's room. The school trustees believe in patronizing home talent when they can be just as well, and perhaps better served, both teachers being residents here.

The readers of the MIRROR at Sierra Madre take part of a family interest and pride in the prosperity of the paper since one of their own number has taken a position upon the editorial staff. Those who were familiar with his style of writing in former years can easily discern his "hand writing on the wall" all over the paper. Mr. Spalding seems to wield with equal force the pen in the editorial sanctum, or the mattock and crowbar in cleaning land and building up a beautiful home, such as he now has at Sierra Madre.

B. B.

ORANGE.

NOTES FROM THE GROVES.
[Correspondence of the TIMES.]

ORANGE, Sept. 16.—Everything is lively down in this part of the country now, and nearly everyone wants to know where they can get a good, steady hand, to do farm work.

Geo. P. Love returned last Friday from the East, looking well and hardy. The raisin business is the chief thing in these parts now. There are about one hundred and fifty men employed for packing alone, in Orange, and nearly every vineyard has hands either laying the grapes down, or turning over and picking up the raisins. The McPherson Bros. have about two acres of ground in one place covered with drying grapes. They also have some sixty men picking, and ten teams hauling the grapes out onto suitable ground for drying.

The Mountain View Drying and Packing Company will start their dryer in a day or two on apples. Its capacity is about five tons of green fruit, and to prepare this fruit they have ladies only.

There is a great deal of talk of cementing the ditches, and it is quite probable that steps will be taken at the next stockholders' meeting so that the work can be commenced immediately.

Mr. Gallop is building a neat little residence on his place, between Orange and Tustin.

The Santa Ana Valley Irrigation Company are making quite extensive preparations for carrying a large amount of water this winter, and people are beginning to learn that it is time to get the ground in condition for a dry summer

PUBLIC KINDERGARTENS.

Synopsis of an Excellent Address by Miss S. A. Stewart.

Saturday at 4 p. m. a meeting of those interested in kindergarten work in connection with the public schools, was held at the First Congregational Church. A number of teachers and others engaged in educational work were present. The meeting was called to order by Rev. A. J. Wells, who introduced as the speaker Miss Sarah A. Stewart of Milwaukee, a lady who has accomplished much for the public kindergartens of Wisconsin. Miss Stewart commenced her address by saying that she deemed it unnecessary to expatiate on the general aim and purpose of the kindergarten as it is an institution which by this time is well understood. The law of the State of Wisconsin admits children to the public schools at the age of four years; and the kindergarten plan has proved a great success. This is partially due to the fact that there is a large German population familiar with the many advantages of the kindergarten, also to the fact that the State authorities have shown a great deal of sympathy with the movement and there has been harmony in all the departments. The plan of organization was to prepare a class of seventeen young ladies for the work given them, both a theoretical and practical training. The schools were instituted in due time and their success in connection with the public schools has been fully demonstrated. The extra expense, which of course forms the chief objection to the plan, and is raised by those who have to foot the bills, has by good management been reduced to a very low figure in Wisconsin. A child can pass through the kindergarten course for a sum equal to that expended in the first or primary grade of the public schools. The same room and the same apparatus can be used for a large class of pupils and the only real expense outside of the building and teachers' services is the material employed, which averages sixty cents per pupil per annum. The ladies used one half as much as the ordinary school desks and seat two pupils. By economy the cost of the furniture and material may be reduced to a very low figure. The cook, however, is but a small consideration when the benefit to the pupils is considered. The kindergarten seems to wonderfully develop the child nature, and fit the pupil for further instruction All things being equal, a child who has received a kindergarten course will accomplish twice as much in a given period at the public school as one who has had similar advantages. The kindergarten has been especially beneficial to children of foreign parentage, giving them the best opportunity to learn the English language rapidly. The advantages of connecting the kindergarten with the public schools are many. In the first place, the institution is not looked upon as a charity affair, but will be free to all—rich and poor. However worthy many private enterprises may be, there is a prejudice against them if they are believed to be charity institutions. Another advantage is the financial security given, which assures the permanency of the undertaking, but greatest of all is the practical value which the kindergarten system proves to possess for training the child for further educational development.

Miss Stewart will continue the subject at the Congregational Church this evening and more fully explain the benefits of the kindergarten system. She presents her views in a very clear and forcible manner, and has evidently thoroughly mastered the subject.

SUNDAY EVENING'S MEETING.

The evening meeting at the First Congregational Church on Sunday was given up to the subject of kindergartens. Rev. Dr. Fay opened with a brief address, asking some pertinent questions. Miss Stewart then made the principal address of the evening, holding the closest attention of the audience. Rev. Mr. Wells closed with a brief address, taking strong grounds in favor of free kindergartens. It is expected that a public meeting will soon be called in that interest.

PRESS POINTS.

Minneapolis Tribune: With a corn crop of 1,500,000,000 bushels the essence of Democracy will not be lacking in Indiana this year.

Galveston News: It is necessary to get mad sometimes to be respected. Spain is very mad, and her government had better not appear as a weepers and clubs. The latter are apt to be trumps. A government directed against its own people is a miserable affair.

Evolution and Development.

Elmira Gazette.]

Johnny and his father had been having a difficulty in the woodshed, owing to some disrespectful remarks made by Johnny respecting his size.

"Now, sir," said the father, hanging the strap up, "has your opinion of your father changed?"

"Yes, boss," sobbed Johnny.

"Well, sir, what is it now?"

"Wy—wy—I think any man that'll jump on a fellow so much littler than he is is a coward and dasn't take it up. Why don't you tackle somebody nearer your size?"

The old man grabbed for the strap, but the boy slipped out and this summer he is a candidate for the Legislature.

Technical objections to a Big Gun. Detroit Free Press.]

A cannon sixty feet long has just been cast for the Government. A thing which will stick as far out of a fort as that will certainly get wet in a rainy day.

Miscellaneous.

THE DAISY!

Steam Fruit Canner,

FOR FAMILY USE.

Cans in the Jars.

Simple and Easy to Operate.

No Excessive Heat.

No Broken Jars.

No Spoiled Fruit.

DESCRIPTION.

This apparatus consists of a steam generator, heated, by a double coal oil burner, which a steam jet is forced through a 3-gallon tube into the fruit to be canned, by means of which it may be easily carried from place to place.

This apparatus is adapted for preserving all kinds of fruits and vegetables in glass or earthenware jars, or tin cans.

ADVANTAGES OF USING THIS APPARATUS.

No jars are broken. The heat is all utilized in the canning process, and none is lost in the dissemination of the operator. By the direct application of the heat, and the fruit being canned in the quickest possible time and the most thorough manner. Owing to the fruit being sealed in the natural appearance and flavor of the fruit is fully retained. A child of three years old can operate the "Daisy." now in operation at

People vs. Ygnacia Burrell.

The record of the drug trade, both in this country and in England and Australia, shows that no pain-cure has the excellence and the popularity of St. Jacobs Oil.

Erythroxylon.

What is it?

The United States Dispensatory, the rule and guide of the drug-dats' faith and practice, will tell you that it is a shrub, a native of South America, that the leaves are great nerve stimulants and that in the absence of food they will support the strength for a considerable time.

It is infinitely more than this combined with other valuable agents as it is in Compound Cocoa Cordial it forms the greatest beauty ever offered for the cure of Consumption and all diseases of the throat and lungs. This statement we are willing to establish by refunding the purchase money to anyone who, after taking one bottle in accordance with the directions, will certify that he received no benefit from its use. We leave the matter entirely to the judgment and conscience of the patient. Davis & Whisler, Druggists, No. 19 South Spring street, Los Angeles.

Skillful, reliable and thoroughly scientific dyers at the Great American Dye House, No. 9 Aliso street.

Running sixteen hours a day to accommodate the great rush and increasing business at No. 9 Aliso street.

The W. C. T. U. meets during the summer on the second and fourth Thursdays in each month at the Presbyterian Church at 2:30 p. m.

* * *

Natural Mineral Water.

"Genoveva," a natural German mineral water. H. J. Woolcott, sole agent for Los Angeles county.

* * *

Dr. Net Cnaw during my absence will take my office and practice, and I commend him to my patrons. I will resume my practice on my return in September. DR. WONG, 730 Upper Main street.

* * *

A Pleasant Trip East.

Walters & Mathes start excursions East Thursday, September 24 and October 22. Address 19 North Hill street. Apply for dates coming West, and inform your friends in the East.

* * *

Away ahead of all competition, as far as the result is above the water, is the Great American Dye House of HORATIO MARTEEN, No. 9 Aliso street.

East Bound.

A. Phillips & Co.'s next party East leaves October 6th. Address A. Phillips & Co., 241 North Main street, Los Angeles.

FINANCE AND TRADE.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, Sept. 21.—Government bonds dull, firm.

Continued strength and a fair amount of activity characterized the opening transactions at the Stock Exchange this morning, fluctuations being generally from ¼ to ¾ per cent. above final figures of Saturday. After midday a selling movement was started which continued until late in the afternoon, resulting in a decline of ¼ to ¾ per cent. The decline was largely local in the neighborhood of 70 o'clock, and a slight rally followed, when the market became steady, and closed generally from ¼ to ¾ per cent. above the lowest quotations of the day. Pacific Mail lost only ¾ per cent. It is said that insiders in this company to-day have been trying to depress prices of stock, but with very little success. Next to Lackawanna, St. Paul and Lake Shore were the most active stocks. While Northwestern and New York Central were quiet. There is a decline of ¾ for St. Paul and ¾ for Northwestern, while Lake Shore lost ¾ and New York Central ¼ per cent. The Gould stocks were generally dull and weak, except Missouri, Kan. as and Texas, which is unchanged.

Petroleum firm; closed $1 00.

Money on call easy, 1@3, closing 3@4. Prime paper, 4@5.

Exchange bills higher, owing to scarcity of commercial bills. Posted, $4 84½, demand; $4 85¾.

NEW YORK STOCKS.

Domestic Grain Market.

SAN FRANCISCO, Sept. 21.—Wheat: Offerings light, movements slow, best grades command $1 40. Barley: Market quiet, buyers few, wants small; prices weak at $1 25 for choice grades; browing in fair demand at $1 27½@1 42½, an afternoon board spot sale of 90 tons main at $1 26¾.

CHICAGO, Sept. 21.—Wheat active, lower yesterday; 82¾@83c September; 85¾@86c October; 89¾@90c November. Corn steady; closing 39¾@40 September; 41@41c October; 39¾@39¾c November. Barley quiet, 75@80c.

English Grain Market.

LIVERPOOL, Sept. 21.—The Mark Lane Express, in its review of the British grain trade during the past week, says: Broken weather, with occasional rains during the past week, have tended to delay harvest. The sales of English wheat during the week were 70,441 quarters at 33s 10d, against 74,135 quarters at 33s 10d during the corresponding week last year. Foreign wheat is dull. The offered market has lost its activity and has turned down. The first cargo of the season of Armenian red winter wheat arrived during the week and was sold at 30s 10½d. Thirty cargoes were sold, five were withdrawn and four remain unsold, one of California. At to-day's market there were in all deliveries of 9 great. The weather was clear and the sun was shining, much to the disappointment of trade. Flour was dull, prices closed at last rates. Beans and peas were steady. Oats were dull and barley in better supply.

Pork.

CHICAGO, Sept. 21.—Pork closed quiet.

Los Angeles Produce Market.

Reported by the Times.

HOME MANUFACTURES.

Local Announcements of Leading Los Angeles Industries.

WHERE TO PURCHASE HOME MADE GOODS

Notes Among the Foundries, Factories and Other Industrial Establishments—Encouraging Reports—What They Are Doing and What They Can Offer.

The TIMES publishes the following review of a portion of our local industries for the benefit of those who wish to patronize home manufactured goods. The list will be enlarged:

W. S. Baker & Co.'s Foundry.

This is one of the most important manufactories in Southern California, employing a large number of men. The works are located at the corner of Second and Main streets, and manufacture agricultural machinery, mining machinery, oil boring tools, grape crushers, wine machinery, etc. They have made many fine improvements during the past few months including the moving of their machinery into rear building, and fitting up their two brick stores in front for sales-rooms. They have also put in a new Atlas automatic engine, which works to perfection. They are making a great success of their mining machinery, having received many large orders. It has been satisfactorily demonstrated that their price are as low as can be obtained in San Francisco, which accounts for their rapidly growing business. Before purchasing any machinery be sure and call on W. S. Baker & Co.

Fence Factory—The A B C Fence

One of the most successful of the recent local manufacturing enterprises of Los Angeles is the A B C fence factory, No. 208 First street, J. L. Wheeler, proprietor. This fence is the cheapest in the market, and at the same time is very effective. It is composed of laths and posts bound together with the strongest Bessemer steel wire. The fence is proof against cattle and horses, dogs, wolves, chickens and rabbits. It is portable, will not injure cattle, is five times as strong as a board fence, lasts three times as long, saves every farmer who uses it from $50 to $100 a mile, and is sold only $1 a rod. It is just the fence for Southern California, where fence materials are expensive. It is now in use on hundreds of farms in this county. Call and see it before making a fence.

Los Angeles Cracker Company.

The Los Angeles Cracker Company, corner of Aliso street and Alameda road, has entered upon its fall and winter most favorable auspices. All kinds of crackers and cakes are manufactured, and the quality is now better than the best imported. The Cracker Company is a local enterprise which should have the support of every one. It is thoroughly deserving. Wisher & Co. are the proprietors.

Excelsior Steam Laundry.

The Excelsior Steam Laundry, corner of Date and Main streets, is a flourishing local enterprise. The proprietors are Messrs. Bayder & Fogen, Mr. Fogen being manager. The laundry is provided with the splendid Troy washing machinery, including one of the largest mangles in the city. The work is ne

PERSONAL.

George S. Abbott, Andover, Mass., is at the Depot Hotel.

G. B. Adams come in yesterday from San Gabriel to get cool.

Ex-Supervisor L. G. Gerous will arrive from the north this noon.

Captain F. M. Darcy returned yesterday from an official trip up north.

Henry N. Galloway returned Sunday evening from a siesta at Long Beach.

Prof. Melville Dozier sailed for San Buenaventura Sunday on the Eureka.

C. T. Smith, a well-known commercial man from San Francisco, is at the St. Elmo.

City Attorney J. W. McKinley returned yesterday from a short vacation at Long Beach.

Ex-Chief Justice S. B. Axtell, of New Mexico, who had made a brief stay here, left for San Francisco on Sunday.

John N. Guffin and family have returned from Santa Monica, where they were "tenting on the beach" for a month past.

A. A. Staunton, a wealthy Canadian, who has been summering at Santa Monica with his family, is at the St. Elmo.

Captain R. A. Pratt, of the U. S. Army, and in charge of the famous Government Indian School at Carlisle, Pa., is in the city with his wife.

George Hibbert, late city editor of the Los Angeles Union, called on the MIRROR on his way to San Francisco, Tuesday morning.—[San Luis Obispo Mirror.

A. G. Glenn, Pacific Coast agent for the Columbus Buggy Company, is stopping at the St. Elmo. He comes to make new arrangements regarding this territory.

Dan McFarland and family, and Mrs. and Miss Howell, of Portsmouth, Ohio, Mrs. McFarland's mother and sister, returned yesterday from a short sojourn at Long Beach.

Will E. Thornton went down to Long Beach Sunday to put up the electric annunciator in the hotel, the wires having been previously laid by him. He will return to-day.

Thomas and Martin A. Schilder, two young business men of Chillicothe, Ohio, are making the "grand tour," are passengers on the Santa Rosa to arrive from the north to-day.

County Assessor R. Bilderrain and Supervisor George Hinds will arrive this noon from the north, where they have been wrestling, with partial success, with the State Board of Equalization.

Mrs. D. W. Meyers, who went some time since to San Francisco to be treated for cancer, died a few days ago. The remains have been brought here and the funeral will take place to-day at 3 P. M., from the family residence, on Aliso street.

At the St. Charles: Geo. E. Baldwin; W. E. Esterly, Chicago; A. T. Wright, Colton; H. Corday, wife and son, Boston; N. M. Hayes, Tulare; F. W. Gray, San Francisco; J. B. Randall and family, Albuquerque; W. J. Kengle, Central City; Dr. J. R. Gibson, Santa Monica; Rev. J. T. Ford, San Bernardino; E. A. Whiting and wife, Holyoke; E. H. Baxten, Minn.

At the St. Elmo: Merrick Reynolds, L. B. Winans, San Pedro; S. W. Scott, New York; G. Peck, San Bernardino; Thos. Stanley, Riverside; Geo. W. Gill, Chicago; J. A. Johnson, Daggett; Robt. McFee, Colton; Geo. Gage; A. H. Hart and S. F. Merritt, San Bernardino; C. T. Smith and J. B. Stanford, San Francisco; A. G. Glenn, Oakland; Geo. Lane and wife, Miles Stanton; San S. Mayo, wife and son, Clinton, Iowa; J. B. Davis and son, Savannah.

An Excellent Opportunity.

The Columbus Buggy Co., of Columbus, Ohio, took the GOLD MEDAL at the New Orleans Exposition. A. G. Glenn, General Agent for the Pacific Coast, is stopping at the St. Elmo, where he would be pleased to meet a wide-awake party with $5,000 cash who will make a specialty of the "Columbus Buggy," which is already well introduced and popular throughout Los Angeles county. An excellent opportunity for the right man to step into a well established business.

In the Sweet Bye and Bye

You will not need many clothes if the weather continues as hot as it now is, but now you must get ready for the cool winter that is soon to come, and while our prices are so very low, early purchasers will receive the benefit. To-day the sales in our dress goods department will be very large owing to the very low prices that are being made. The same can be said of our domestic department, and also notions. You no doubt are aware that we are making very low prices on all kinds of notions. From 8 till 12 we offer one big lot of yard-wide fine cashmere for 29 cents, worth 50. One lot of 42-inch, all-wool Jersey cords at 59, marked at 87 cents as a leader. This is a very great bargain and must be seen to be appreciated. Our bargains are far-reaching. Every department is full of them, from a common hairpin to a fine silk dress. In the afternoon our time will be largely devoted to making extreme low prices on domestics. Genuine Turkey red damask, regular 65 cent goods, will be sold for 39 cents only between 1:29 and 2:29. Between 2:39 and 3:39 we will offer regular 20 cent all linen towelings for 11 cents. All day we will sell rubber ribbons for 5 cents, worth 15 cents; a good wire hair brush and a rubber dressing comb for 39 cents; darning cotton, 1 cent; and between 3 and 4 we will sell best Manzanar cord for 10 cents per ball—all colors—big variety to select from. Remember, we sell a good 50 cent corset for 25 cents. When the weather gets cooler we will tell you about blankets and cloaks, but our modesty forbids during this extra roasting hot weather. You will probably excuse us until cooler weather.
J. T. SHEWARD.

WAITE AGAIN.

Likewise Bowen, and Their "Order of New Life."

ANTECEDENTS OF THE CRANKY COLONY.

Evidence That There is Something Worse Than Crankiness in the Heads of the Order—Their Old Home Heard From.

On the 6th of September the TIMES printed a long article upon Sherman Waite, Dr. Horace Bowen, and their "Order of New Life" at South Pasadena, having at last traced them to their retreat there. While nothing was yet proved here as to the moral status of the peculiar community, the inference was drawn that this sect, like all similar sects, was not exactly what it should be morally. Evidence on this point now begins to come in. A copy of the above-mentioned issue of the TIMES, sent to the Glens Falls, N. Y., Messenger, brings in reply a letter with a copy of that paper of May 29th last. The paper has over three columns on the Order of New Life and its dubious managers—and the sketch does not contain any honey for the Order. It is reprinted from the Vineland News-Times. The sanitarium run by "Doctors" Waite, Bowen and Carpenter, was formerly located at Eagle Rock, on the Hudson; and they also formerly had a "home" at Saratoga Springs. The News-Times man first got acquainted with "Dr." Sheridan Waite, of the Bowen sanitarium, in the autumn of 1884. The institution was next door to his house, in the suburbs, but he didn't know them nor of them until they had been there eight months. They seem to have been as shy of public notice there as they have been here. They held aloof from all acquaintance with outsiders then as now. Their institution was a "sanitarium," "specially devoted to ladies and children." [A hint of similar character was given here by the TIMES, in the fact that two illegitimate children had been sent to the South Pasadena colony by a wealthy Eastern widow.] The women about the house kept very "shady;" but there was such a squad of infants as to convey their idea of a baby farm. The able Dr. Bowen, head of the institution, and, so far as known, the original evolver of this peculiar cranksism, is labeled as a piratical swearer and crooked in small money transactions. The Order pretends apparently to devote itself to eradicating disease, mental, moral and physical, by the Bowen system. The comment according to the News-Times, includes: "Starvation at $10 per week; homeopathic medicine; the study of Hebrew, and Bowen's remarkable book done into even more idiotic verse by Waite—and massage." The charge is directly made of immoralities perpetrated by the "Doctors" in connection with the massage treatment. The massage is a process of kneading and shampooing the nude body of the patient by an attendant, something like one of the stages of a Turkish bath. Now baths, however, and with respectable appliers of the massage, male subjects have of course male attendants, while women are rubbed by female attendants. But a girl of the investigator's household climbed a tree one day, and by chance looked into the windows of Bowen & Waite's "Sanitarial Cottage." She saw one of the doctors, himself nude, shampooing a nude woman. A young lady patient of the same cranks, when their sanitarium was located at Eagle Rock, states that she quit the institution hurriedly because one of the "doctors" walked nude into her bedroom. Various minor details are given, which are here crowded out.

OTHER DOINGS-UP.

The Millville (N. J.) Bulletin says: "The last remnant of the Vineland-owing Power sanitarium has packed up its trunk and left Vineland. It was a nine days' wonder, which became odorous before the ninth day. Having been let alone to develop its peculiar ideas and practices, it let the cat out of the bag for itself, and died because it wasn't fit to live. It ought to be plain after a while that all the conceivable humbuggery of the universe can't organize itself and flourish in Vineland. No place in this country has so effectually squelched the unnumbered experiments of crack-brained theorizers as has Vineland; and she has done so by letting them demonstrate their foolishness, and then applying the remedy."

The Worcester, Mass., Daily Spy adds its tribute to Sheridan Waite, then lecturing in New England:

The fool-killer appears to have become entirely unconscious of his duty, judging from the increasing number of ignorant and prattling people who of late find it easy to get the hard cash of numbers of apparently rational persons, in exchange for various kinds of vaporous theories or incoherent jabber, with reference to disease and its cure.

Last Tuesday afternoon a callow youth with a voice that sadly needed a "cure," bearing the name of Sheridan Waite, talked to an overflowing crowful of people at the Walker Building upon yet a new theory of cure.

He comes from the "Bowen Sanitarium" at Vineland, N. J., where there are many believers in the "cure." It is represented, also, that several Worcester people have attained to that stage of faith in his "system" where cash begins to move from the pocket of the victim to the pocket of the professor.

If it was his purpose to demonstrate that the object of language is to cause agitation of air, he must be voted a success. His theme, so he said, was the "overshadowing power of God." If he had addressed his audience in the language of the mound-builders it would have comprehended him as fully, and if he had maintained absolute silence he would have presented the assembly with just as much that is worthy of consideration by rational beings. He did neither, but unwound an endless string of English words that must have made even the metaphysical head turn pale with envy, if any of them were present, in the presentation of the "Bowen method," which is so chaotic that even the "faith cure" becomes easy in comparison.

This forward and unripe professor thinks he has discovered a subtle key to the Bible, by which he has ciphered out that it is not a historical record of natural events, or at least an approximately correct account of the spiritual growth and development of the race. The Bible is simply an allegorical picture of the development of the human soul, together with a sort of map of the soul's attributes. He had a chart, which was an improvement upon his talk, because it could be seen, and the colors upon it were not of themselves especially objectionable. The chart was a sort of "Black Valley Railroad," over which the soul had traveled since creation, and it was very clear and lucid—to the lecturer. The milk in the cocoanut—the object of the hour's yearning talk—was to advocate some sort of "system" for the cure of disease by which "the Eve in man" was to get the underhold in the wrestle and pitch the disease over the ropes onto the heads of the orchestra—knock it completely out before the end of one round.

In the old days there used to be maintained a town pound into which all stray cattle were driven and kept to be claimed by an owner, but the fact that such persons as the jane here referred to roam about unmolested is the best possible proof that the custom has fallen into decadence.

Remarkable Fire in a Pit.

In the land of Francisco Ruiz at La Brea, they were digging a well; at the depth of forty-five feet Erasmo Duran, the man who was working below, evidently struck a rock, and suddenly a great flame issued from the pit to the height of twenty feet or so, singing the hair of the man at the windlass, Francisco Ruiz. Wonderful to tell, the man below was not killed, although he was so badly scorched that his skin came off his hands and face. His escape is ascribed to his clothing being entirely wet from sweating at his work, and it did not take fire. Fire is still burning at the bottom of the well.

Information Wanted.

Wm. B. Colville, of Callao, Peru, writes to the TIMES seeking information concerning a Mr. Dipple, (French) "whom I knew in Sacramento in 1852. He was burned out in October and went to Los Angeles with his family to cultivate grape vines. I left San Francisco in December, 1854, and have not heard of him since that time." Mr. Colville will be obliged for information from any source regarding Mr. Dipple.

BRIEFS.

Thirteen arrests Sunday.

Five deaths in the city yesterday, and one in the country.

The first regular public school at Long Beach opened yesterday.

The way-steamer Eureka took but seven passengers from this city yesterday.

About 150 persons went down to Santa Monica by rail, Saturday and Sunday.
